

Zombie Outbreak Detectives

There has been a zombie outbreak at the school we have information from 10 people.

We have information from four data sources:

Zombie status – who is a zombie who is uninfected?

Food list – What was the last meal eaten by everyone?

Genetics – Who has a protective gene?

Location – where do people live?

Can you collect information from different data sources to complete the table and figure out the food source of the outbreak?

Names	Zombie status	Food	Genetic Resistance	Addresses
Angus				
Christos	Uninfected			
Harper				
Isabella				
Isla	Uninfected			
Lee	Uninfected			
Mohammad	Uninfected			
Sam				
Taylor	Uninfected			
Zhuoni	Uninfected
